Readiness rates are calculated for all VPK providers that served at least four children who

- were in attendance for at least 70-percent of either the School Year or Summer VPK program (have substantially completed the program)

Florida's Voluntary Pre-Kindergarten Program

To be eligible for the VPK program, a child must reside in Florida and be four years old on or before September 1, 2010.

A child remains eligible for the VPK program until the beginning of the school year for which the child is eligible for admission to kindergarten in a public school.

A child is eligible to be enrolled in **either**:

- a school year program (540 instructional hours)
- or a summer program (300 instructional hours).

A parent of each eligible child may enroll the child in one of the following programs:

- A school year pre-kindergarten program delivered by a private pre-kindergarten provider.
- A school year pre-kindergarten program delivered by a public school.
- A summer pre-kindergarten program delivered by the public school system or a private pre-kindergarten provider.

Every school district is required by law to deliver the summer VPK program for every eligible child wanting to participate and who was not served in a school year program.

The summer program will begin in the Summer of 2011.
